RE: Covid-19 update

October 25, 2020 update

As of today we have received the results of all resident tests and we can advise that there were no additional positive cases. In addition, we have not been advised that any staff have tested positive. We will be meeting with AHS early this week to review our next steps and will update you accordingly. Thank you for your patience and support.

Truman Severson, Executive Director
Chinatown Multi-Level Care Foundation
