RE: Covid-19 update

---

### **October 14, 2020 update**

This morning we were advised by Alberta Health Services that one of our residents had tested positive for COVID-19. As a result, we have had to reactivate our contingency plan, which has included testing all residents and staff. We are also working with AHS to try and determine the source of the infection.

As of today, we have had no additional residents or staff exhibit symptoms of COVID-19. The resident who tested positive has not been in contact with other residents or in public areas for several weeks. We have also not experienced any disruptions to our staffing levels and daily routines. That said, we are on high alert and will be for next few weeks.

Unfortunately, we will not be able to restart the in person visiting at this time. We will update you as we learn more.

Truman Severson, Executive Director  
Chinatown Multi-Level Care Foundation
